And one of my last HD video I made about one of my most difficult tour and it was manly because of this man here:

or

But he is famous volcano expert from Swiss. He got famous after making a trip to the volcano Etna when it was active <http://blip.tv/file/378732/> (Peter break all laws as you can see on the video i made about his trip in the Icelandic Highland)

I was flying few days ago around Videy island close to Reykjavik

In the middle of the video you can see how nice it is to fly with the camera on the nose of the trike.
